EPLAN Professional Services

Consulting Subscription

Book two consulting days per year
for your specific needs.

Consulting Subscription

With the EPLAN Professional Services Consulting subscription, you can schedule two consulting days per year for your specific needs. For example, you can book our services as regular support for installing updates or customising your working environment to the newest version of EPLAN. We're also happy to support you with tips and tricks for your daily work in engineering. In short: The subscription means flexible support from the entire range of services offered by EPLAN Consulting.

An Overview of Your Benefits

We're there for you!

- Direct answers to your questions from EPLAN experts
- Personal coaching from our experienced consultants
- Exclusive free EPLAN utilities and scripts

Easy, flexible, convenient

- Easy access to two consulting days per year
- Utilise a session to bring your Eplan software to the current version each year
- Support from dedicated consultants who are familiar with your company
- Easily increase the consulting days available by booking additional subscriptions

Exclusive Added Value for Subscribers

We can share EPLAN utilities, add-ins and scripts at no additional cost. Here are just a few examples of some of the available content:

- Install Utility: Dialog-guided creation of batch files for automatic installation
- Add-on Utility: Distribution of settings within the company
- Set Settings Script: Loading of multiple settings at the push of a button (for instance, the working environment for customers)
- Automated Processing Script: Execute pre-defined actions when closing a project

Expert Events and Specialist Conferences

We will invite you to our events during the year. Experienced consultants present fascinating best-practices, solutions and discuss current market trends with you. Furthermore, you can also exchange ideas and talk shop with like-minded people.

Sign Up for Your Consulting Subscription Now!
